

# CNC Machinist

Full-Time

Morganton, NC, US

## Job Overview

We are seeking a skilled CNC Machinist to join our dynamic team. The ideal candidate will be responsible for setting up and operating CNC machines to produce precision parts and components. This role requires a strong understanding of machining processes, programming, and the ability to read blueprints effectively. The CNC Machinist will work closely with engineers and other team members to ensure high-quality production standards are met.

### Duties

- Set up and operate CNC lathes and milling machines according to specifications.
- Interpret blueprints and technical drawings to determine machining requirements.
- Perform CNC programming to create efficient production processes.
- Utilize precision measuring instruments such as calipers, micrometers, bore gauges, and coordinate measuring machines to ensure product accuracy.
- Conduct routine maintenance on machines and troubleshoot any issues that arise during production.
- Collaborate with team members on tooling setups and adjustments for optimal performance.
- Adhere to safety protocols and lean manufacturing principles in all aspects of work.

### Skills

- Proficient in CNC programming and operation of CNC milling machines and lathes.
- Strong knowledge of tolerances.
- Experience with SolidWorks, CAD software, and electrical discharge machining is a plus.
- Familiarity with basic math skills for precise measurements and calculations.
- Mechanical knowledge with hands-on experience using hand tools, power tools, and tooling setups.
- Understanding of manufacturing processes.

- Ability to operate forklifts safely in a manufacturing environment.
- Knowledge of lean manufacturing techniques to enhance productivity.

**Come join a team that values you and your input.**
